

Hut Etiquette

Please....

**Leave the hut cleaner than you found it.
We do not have a cleaning service, and we rely on every party to keep it clean for the next party.**

Wipe up water puddles, to help maintain the flooring.

Fill the snow buckets and the large water pots for the next party. If you keep filling the pots with snow you will always have water, and the next party will appreciate what you leave them!

Sweep the floors and entrance carpet.

Clean the kitchen, including the stovetop. Cleaning supplies are under the sink.

Carry out all trash. Don't throw food scraps or cooking grease outside. This brings rodents.

Please report any signs of rodent activity to MTTA.

This facility is provided to you with volunteer labor, so we really appreciate your efforts to care for it!

Thank you very much!

The MTTA volunteers
